THE 55th SEMI-ANNUAL

CENTRAL STATES

Shorthorn & Polled Shorthorn SHOW & SALE

OSKALOOSA, IOWA

SATURDAY, APRIL 2, 1977

100 — HEAD — 100

26 BULLS

74 FEMALES

This sale has earned the title of "The Sale Of The Money Makers." Central States cattle are the kind that are honestly represented, practically raised with the bred-in "doing ability" to make a profit for you.

This sale will feature large consignments from Lloyd Burr and Son, Parsons Shorthorns, Penningroth Bros. and Wm. McCullough. In addition, we will have our usual strong offering of bulls, females and heifer calves. Also note the strong infusion of Dual Purpose blood in this offering.

Never before has the beef industry been so conscious of the greater milking qualities, high grading ability, and quick, economical fleshing attributes of Shorthorns and Polled Shorthorns. We are the breed best able to correct the weaknesses of the exotics. This is forcefully illustrated by the large number of exotic fanciers using Shorthorn and Polled Shorthorn females in their upgrading programs.

HILLTOP WARRIOR 5128 x — Selling two-thirds interest, retaining semen interest only. There are two ways to evaluate this bull . . . visually he has all the credentials . . . size, muscling, length, correctness and style. His pedigree tells us why. His dam has produced successfully Hill Top Lancer 471, that was National champion bull in 1976 for F. A. Heckendorf, Jr. Her 1976 calf, Hilltop Lassie 691, was reserve champion junior heifer at the National Western the first time shown. He stood well up in extremely tough competition in the Iowa State Fair and National Show at Kansas City. His dam is also a full sister to the dam of the 1975 National champion and All-American Hilltop Lancer 457, that sold for \$18,500 in the Bar 4 Production Sale last fall. We bred eight heifers to him last year and will have calves by him near sale time. Full possession and full salvage value goes to the buyer.

ROYAL NERO x — Yearling weight, 1,045 lbs. We feel these bulls will be commercial cattlemen's delight. Bulls tall enough to look you in the eye, yet they have the thickness and bred-in ability to marble. We took the bottom 30 steer calves off of this crop, put them in the feed lot for 17 months and sold them December, 1976 off of corn silage and grain weighing 1,310 lbs. They brought \$41.50. With a little figuring this cattle business may look better than you think.

If you were at the Iowa Beef Expo and took an honest appraisal of the breeds, I am sure you would come to the same conclusion.

STANDARD GUARANTEE

OF AMERICAN SHORTHORN BREEDING ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. Bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within six months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller. (Cows with calves at foot even though bred are not given any guarantee.)
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction on all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any other animal later substituted.
5. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such certificate is required by the seller.
6. All animals are sold to comply with the laws regulating tuberculosis and Bang's disease of the state or country into which they may be shipped.
7. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
